

GENERAL PROCUREMENT NOTICE (GPN)

Government of the Republic of Liberia Ministry of Finance & Development Planning

Compact Development Team Liberia (CDT)

GPN Version: 2026-GPN-01

Publication Date: July 8, 2026

The Government of the Republic of Liberia (the “Government” or “GOL”) has applied for grant funding from the Millennium Challenge Corporation (“MCC”), called a Compact (the “Compact”), to help accelerate economic growth and poverty reduction in Liberia. The Government has established a Compact Development Team (CDT) unit within the Ministry of Finance and Development Planning (MFDP), for the purpose of developing the proposed Compact.

To support these activities, MCC and the Government are expected to enter into a Compact Development Funding (CDF) Agreement, anticipated to be executed in December 2026, under which MCC will provide grant funding, currently estimated at approximately US\$12 million and subject to revision, pursuant to Section 609(g) of the Millennium Challenge Act of 2003, as amended (the “Act”), to facilitate the development of a proposed Compact between the United States of America, acting through MCC, and the Government. The Government also intends to provide counterpart funding toward the development of the proposed Compact, currently estimated at approximately US\$2.3 million and subject to revision.

MCC is an independent U.S. Government agency focused on unlocking economic growth through results-driven foreign assistance. MCC grants support large-scale infrastructure, strategic reforms, and economic modernization. MCC advances America’s interest by delivering measurable returns to both recipient countries and U.S. taxpayers, through expanded commercial opportunities, strengthened economic partnerships, and sustainable economic growth.

The proposed Compact is currently in its initial stage of development and is expected to include investments in economic and governance infrastructure in the energy sector. The proposed Compact will include grant funding from MCC and a contribution from the Government. This funding will be in addition to funding to be provided by MCC under the CDF Agreement and Government’s contribution toward the development of the proposed Compact.

During the twelve (12) months from July 2026 through June 2027, the Government, acting through the CDT, intends to initiate procurement processes for the following services using the Government’s contribution toward the development of the proposed Compact and, following execution of the CDF Agreement, funding provided by MCC under the CDF Agreement.

Procurements for the period July 2026 to June 2027
Estimated Total Value – US\$7,600,000

Requirement Type
Consultant Services
Procurement Agent Services
Evaluation Panel Members
Goods/Works/Non-Consultant Services

This GPN will be updated and published periodically as additional procurement opportunities related to the development of the proposed Compact are identified.

Contracts for goods, works, and services financed under the CDF Agreement will be procured in accordance with the principles, rules and procedures set out in the MCC's Accountable Entity Procurement Policy and Guidelines (PPG) which can be found on the MCC's [website](#). Procurements are open to all bidders from all eligible source countries as defined in the PPG.

Specific Procurement Notices (SPN) for contracts to be procured through competitive bidding procedures will be published, as they become available, in a local newspaper, on dgMarket (<http://www.dgmarket.com>), on the Government's website (<http://www.mfdp.gov.lr>), and on other media outlets as appropriate.

Interested eligible contractors and consultants wishing to be included on the mailing list to receive a copy of advertisements for specific procurements, or requiring additional information, should register using the following link: [Liberia GPN# 1](#). Interested contractors and consultants should provide their correct email contact details.
